

**Chapman Deaths**  
**New York State**  
**1881 - 1952**

Neil Chapman, CFA #398, extracted the Chapmans from the microfilm of the New York Death indexes in 2002. Covering the years 1881 - 1952 he submitted about 70 files containing over 2500 deaths, one for each year, in which he recorded the year, Chapman name, day and month of death, place of death and the identification- assumed to be the certificate number.

SB following a name indicates still born.

In 1940 the age was added to the file but the identification numbers were not legible.

For the years 1941, 1942 and 1943 the microfilm was so poor that the data was not legible.

In 1944 the identification numbers were not legible.
